

Dual-Ramp Wheelchair Scale

The Dual-Ramp Wheelchair Scale is designed to provide accurate, high-capacity weighing for wheelchair users and individuals requiring assistance. With dual ramps for convenient access, a foldable design, and advanced weighing features, it delivers reliable performance for hospitals, clinics, and long-term care environments.

Features

- Dual-ramp design for easy wheelchair access from either side
- Large LCD display with antimicrobial keypad
- Motiontrap™ technology for accurate readings during movement
- Foldable design with transport wheels for easy storage and mobility
- BMI, tare, and hold functions for efficient weighing
- EMR-ready with USB, serial, and optional Bluetooth® connectivity

Specifications
