

Eclipse 28" Bariatric Manual Wheelchair

The Eclipse is a rigid bariatric manual wheelchair designed to provide strength, stability, and maneuverability for higher-weight users. Its narrow overall width and forward wheelbase improve mobility in a variety of environments.

Features

- Rigid frame provides strength and durability
- Forward wheelbase improves maneuverability and weight distribution
- Narrow overall width allows easier access through doorways
- Removable armrests, back, and rear wheels for easier transport
- Available with optional dynamic back recline
- Transit tie-down compatible on select sizes
