

The Fuze T50 is a tilt-in-space manual wheelchair designed to provide pressure relief, positioning, and independent mobility. Its unique tilt system minimizes center of gravity shift, delivering smooth handling both in and out of tilt.

Features

- Up to 50° of tilt for positioning and pressure relief
- Zero center of gravity shift for smooth maneuverability
- Lightweight design supports independent mobility
- Adjustable seating and positioning options
- Multiple armrest, footrest, and wheel configurations available
- Angle-adjustable backrest for personalized support

Specifications
