

Geo-Matrix™ Hybrid Deep

The Geo-Matrix™ Hybrid Deep Cushion is designed to provide advanced pressure distribution, gentle positioning, and enhanced postural support for users at risk of skin breakdown.

MSRP
\$725.00

Features

- Cascading gel top layer enhances comfort and reduces pressure behind the knees.
- Gentle contouring and positioning support improved posture and stability.
- Helps maximize weight bearing through the greater trochanter and femur.
- Designed to support mild off-loading from the ischial tuberosities.
- Provides vibration control and pressure redistribution for everyday comfort.
- Suitable for users with existing skin issues or moderate risk of skin breakdown.
- Spacer Fabric outer cover improves airflow and breathability.
Inner wipeable moisture-proof cover helps protect the cushion.
