## Meet the HME Signature Series

HME is dedicated to providing our clients with the very best products. Over the course of 25 years, HME has been at the forefront of delivering, servicing, and managing medical products for clients in communities across British Columbia.

By working with diverse groups of clients and families in many unique situations, HME has found that what many people want is locally-made products that deliver optimal quality and superior value.

In 2020, the founders of HME, Robert and Cameron, alongside COO, Michelle Harvey as the Clinical Director of the HME Signature Series decided to create 2 lines of products, the HME Signature Series Packages and the HME Signature Series Products. HME believes that every product in the HME Signature Series must align with the following commitments and ideals:

1. Products are designed, manufactured, and distributed by locally-owned and locally-sourced Canadian companies.
2. Site tours are undertaken yearly to ensure a close relationship with the manufacturers who create and add value to this unique line of high-quality products.
3. All HME Signature products offer the best quality and provide a minimum one-year warranty to guarantee product satisfaction.
4. Products are tested annually by HME's clinical team.
5. HME Signature products are stocked in all HME locations and ready for same-day delivery.

We profoundly and whole-heartedly hope you enjoy these products.

Sincerely,

Robert Boscacci & Cameron Fleming  
*Co-Presidents of HME*

# HME NS SQUARED CUSHION

## CREATED FOR STABILITY & COMFORT

The HME Signature Series NS<sup>2</sup> (Non-Slip, Non-Slide) Cushion is an innovative foam-based contoured wheelchair cushion offering optimal comfort, support, and longevity to elevate your mobility experience and deliver exceptional relief.

The HME Signature Series NS<sup>2</sup> Cushion is designed and manufactured in Canada exclusively for HME Home Health.

**MSRP** From \$600

16" x 16"	16" x 18"	18" x 18"	20" x 20"	22" x 22"
NSSQUARED-1616	NSSQUARED-1618	NSSQUARED-1818	NSSQUARED-2020	NSSQUARED-2222
Weight Capacity: 300 lbs			500lbs	

## DESIGN & COMPOSITION

The design and composition of the NS<sup>2</sup> Cushion features an anti-slip cover that prevents the pelvis from sliding forward and provides lateral support to improve balance and postural stability, while optimally aligning the lower limbs.

## LARGER CONTACT SURFACE

Designed with a larger contact surface, the NS<sup>2</sup> Cushion provides a controlled and balanced weight distribution and reduces pressure on bony prominences.

## DISPERSION FOAM

With a layer of dispersion foam in the posterior well, the NS<sup>2</sup> Cushion provides a deeper immersion of the ischial tuberosity to ensure optimal comfort.

## SPECIFICATIONS

- Product Weight: 4 lbs
- Incontinence Cover: Included (free of charge)
- Foam Base: Firm urethane-injected foam
- Foam Insert: Temper Foam
- Top Layer: Viscoelastic Foam

# HME NS SQUARED CUSHION

## GEL & FOAM LAYERED CUSHION

The HME Signature Series GD<sup>2</sup> (Gel Distribution) Cushion is HME's premium foam-based wheelchair cushion with a pin-dot gel pelvic well and contoured leg support, designed to take your comfort/support to the next level.

The HME Signature Series GD<sup>2</sup> Cushion is designed and manufactured in Canada exclusively for HME Home Health.

**MSRP** From \$800

16" x 16"	16" x 18"	18" x 18"	20" x 20"	22" x 22"

Weight Capacity: 300 lbs			500lbs	

### LARGER CONTACT SURFACE

The GD<sup>2</sup> Cushion was designed with a larger contact surface to ensure a controlled and balanced weight distribution and reduces pressure on bony prominences while offering superior protection to the well through the presence of a silicone gel.

### DISPERSION FOAM

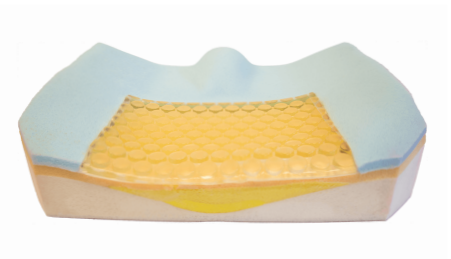

With a layer of dispersion foam in the posterior well, the GD<sup>2</sup> Cushion provides a deeper immersion of the ischial tuberosity to ensure optimal comfort.

### EMBOSSED GEL INSERT

The embossed gel insert of the GD<sup>2</sup> Cushion promotes greater air circulation and reduces the accumulation of heat and moisture.

### SPECIFICATIONS

- Product Weight: 4 lbs
- Incontinence Cover: Included (free of charge)
- Foam Base: Firm urethane-injected foam
- Foam Insert: Temper Foam
- Top Layer: Viscoelastic Foam

# HME BUMBLEBEE CUSHION

## CREATED FOR STABILITY & COMFORT

The HME Signature Series Bumblebee Cushion is designed to promote a stable seating posture and naturally align the lower limbs. The lateral adductors and the medial thigh abductor support the patient's lower body and the anti-thrust wedge prevents the user from slipping forward.

Framed with a sturdy layer of plastazote to ensure stability, the Bumblebee Cushion is made of soft memory foam and urethane that provide exceptional support and comfort.

The lateral pelvic and adductor supports of the Bumblebee Cushion are reinforced with a rigid structure for effective postural control of the pelvis and the lower limbs.

**MSRP** From \$900

Weight Capacity: 150 lbs						300 lbs

- Framed with a sturdy layer of plastazote to ensure stability, the Bumblebee Cushion is made of soft memory foam and urethane that provide exceptional support and comfort.
- The lateral pelvic and adductor supports are reinforced with a rigid structure for effective postural control of the pelvis and the lower limbs.
- The cushion also features Rear Notching available for growth
- Designed and manufactured in Canada exclusively for HME Home Health

# HME LUNA MATTRESS

## CREATED FOR COMFORT & DURABILITY

The HME Signature Series Luna Mattress is a solid single foam mattress. The mattress features a dense and firm foam that provides resistance to bottoming out and features a highly durable non-stretch cover with a center line zipper with a flap that protects the mattress from fluids.

The HME Signature Series Luna Mattress is designed and manufactured in Canada exclusively for HME Home Health. This mattress is CertiPUR-US certified – safe for indoor use and free from harmful chemicals such as formaldehyde and ozone depleters.

**MSRp:** \$599

**SKU:** LUNA-60

## FEATURES

- 2.1 PCF density foam resulting in durability and support every night for users
- Density and firmness of foam provides resistance to bottoming out
- Created as a single solid foam mattress
- Highly Durable non-stretch cover
- Center line zipper with flap protects the mattress from fluids
- Foam can be flipped and rotated within the cover for the longevity of mattress
- Designed & manufactured in Canada exclusively for HME Home Health

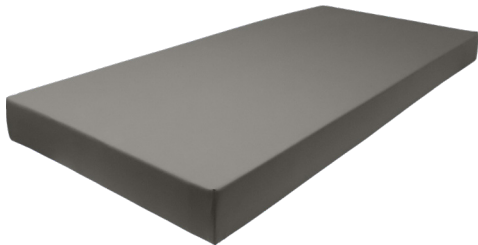

## SPECIFICATIONS

- Dimensions: 36" x 80"
- Weight Capacity: 300 lbs.

# HME OTTER MATTRESS

## CREATED FOR PEDIATRIC & ADULT USE

the HME Signature Series Otter Mattress is 3-layered foam mattress designed to prevent and help relieve pressure sores. The mattress features high-density rails as well as an emulsion cover with welded corners and bottom zipper to help protect against fluid incursion.

The HME Signature Series Otter Mattress is designed & manufactured in Canada exclusively for HME Home Health. This mattress is CertiPUR-US certified – safe for indoor use and free from harmful chemicals such as formaldehyde and ozone depleters.

**MSRP:** \$850

**SKU:** OTTER-60

## FEATURES

- High-density rails and firmness of foam – easy transfers & comfortable seating
- 3-layer foam designed to prevent and help relieve pressure sores
- Material tested for durability/longevity in hospital & home-care environments
- Combination of stretch material cover and foam provides improved pressure redistribution characteristics
- Emulsion cover: fluid-proof, non-allergenic, antibacterial, and antimicrobial
- Easily removable and machine washable cover
- Welded corners and bottom zipper help protect against fluid incursion
- Designed & manufactured in Canada exclusively for HME Home Health

## SPECIFICATIONS

- Dimensions: 36" x 80"
- Weight Capacity: 300 lbs.

# HME GEL-E-FISH MATTRESS

## CREATED WITH GEL INFUSED FOAM

HME's exclusive, Signature Series Gel-e-fish Mattress was clinically designed to provide an innovative gel-infused foam mattress suitable for multiple patient care situations

Starting with a firm support base to assist with stability, the mattress is then composed of two additional layers. The middle layer is comprised of high-durability foam. While the final top layer is a gel-infused memory foam layer designed to promote pressure re-distribution, immersion, and comfort while offering the cooling properties of gel.

**MSRP:** \$1,079

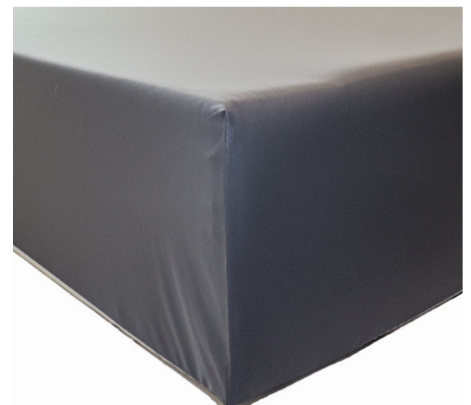

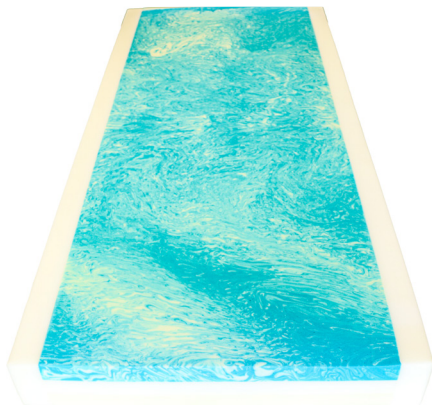

**SKU:** HMEGELEFISH-355

## FEATURES

- High-density rails and firmness of foam - easy transfers & comfortable seating
- 3-layer design:
  - High density foam support layer (base layer)
  - Mid comfort layer is also high density for support that lasts over time.
  - Gel-in memory foam top layer has high air flow to dissipate heat, keeping the surface cooler.
- Easily removable and machine washable cover
- 2.75 density rating - resists bottoming-out

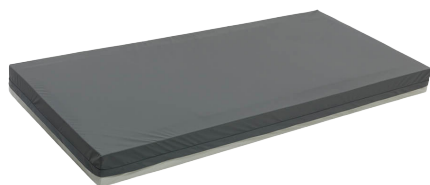

## SPECIFICATIONS

- Dimensions: 80" x 35.5" x 6"
- Weight Capacity: 400 lbs (With all foam inserts)

# HME LTC 9000 MATTRESS

## CREATED FOR LONG-TERM CARE USE

Our versatile design allows for multiple configurations to meet specific patient needs. The mattress uses a combination of interchangeable foam and/or air inserts to optimize care and comfort. Additionally, a removable fluid-proof, non-allergenic, antibacterial, anti-microbial 'single envelope' cover protects internal components and ensures easy cleaning.

**MSRP:** \$1,430

**SKU:** LTCAP6SQ4G-60

## FEATURES

### Pressure Distribution:

The optimum choice for individuals at risk of pressure sore development, which may be caused by air-filled or gel inserts that over time may change location.

Gel-in foam & Gel-infused viscoelastic foam provides superior pressure distribution plus the cooling effect of the gel

### Firmness:

Firmness may be adjusted to suit patients' needs. Medium-firm viscoelastic foam conforms to body contours, providing superior pressure redistribution

### Transfers:

Optimal for bedside stability with 6-inch transfer full-height borders that prevent entrapment as well as providing firmness along sides.

### Bed Mobility:

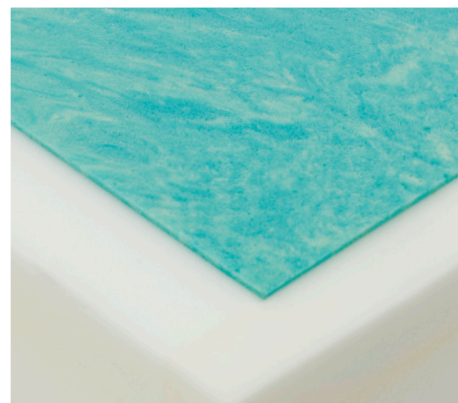

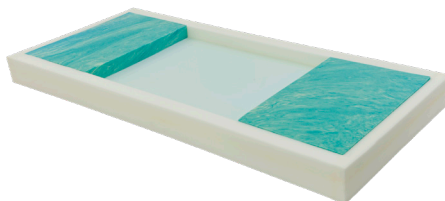

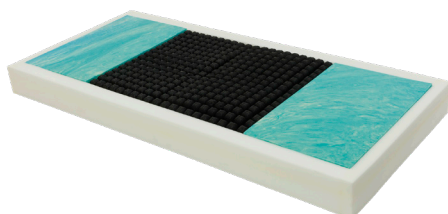

The viscoelastic top layer may impair bed mobility for some individuals, but will vary depending on the inserts selected.

### Temperature:

Best choice for preventing heat build-up and sweating caused by gel or air-filled inserts.

## SPECIFICATIONS

- Dimensions: 80" x 35" x 6"      80" x 36" x 6"      80" x 39" x 6"
- Weight Capacity: 350 lbs (With all foam inserts)

# HME COHO BARIATRIC MATTRESS

## CREATED FOR BARIATRIC USERS

The HME Signature Series Coho mattress was exclusively designed by HME's clinical team to provide optimum comfort and support in a bariatric mattress. With a weight capacity of 600 lbs., the HME Coho utilizes a 7" extra-thick Monoblock of high-density and high-resilient foam. The unique variegated cell sizing allows large cells for softness and small cells for support, resulting in a 2.75 density rating, essential to resisting bottoming-out.

**MSRP:** \$1,664.58

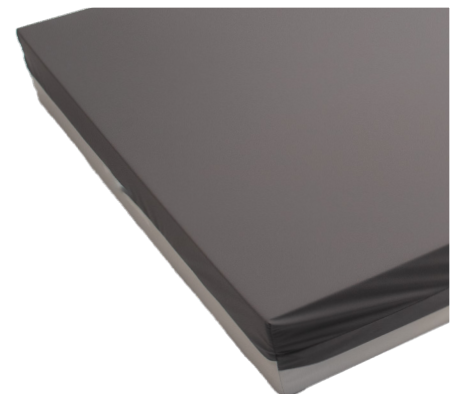

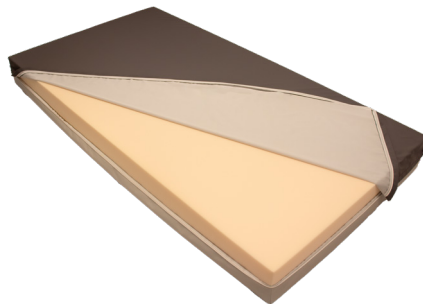

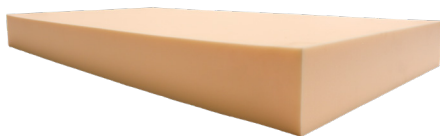

**SKU:** LTCAP6SQ4G-60

## FEATURES

- 7" extra-thick Monoblock of high-density and high-resilient foam.
- 2.75 density rating, essential to resisting bottoming-out
- Material tested for durability/longevity in hospital & home-care environments
- Designed & manufactured in Canada exclusively for HME Home Health

## SPECIFICATIONS

- Dimensions: 80" x 42"
- Weight Capacity: 600 Lbs

# HME DOVE MATTRESS

## CREATED FOR STABILITY & COMFORT

The HME Signature Series Dove Mattress is designed to prevent and manage skin injuries using alternating pressure and micro low air loss technologies exclusively designed in Canada for HME Home Health. With its 'Quick-Start' feature, it requires little set-up and maintenance and is ideal for all patient care environments. Created by HME's clinical team based on client and industry feedback and auditing all other mattresses available in the market, our team believes that the Dove Mattress is the ideal choice for any user managing pressure wounds for any age from pediatric to geriatric users.

**MSRP:** \$2,995

**SKU:** HMEDOVE

### FEATURES

#### Micro Low Air Loss:

Constant flow of air to maintain constant temperature and humidity.

#### 8" Surface Depth:

Designed for use with most homecare and hospital beds and side rails

#### Resources:

For the HME Signature Series Dove Quick Start Guide, scan the QR code or visit [www.hmebc.com/quick-start-hme-signature-series-dove-mattress/](http://www.hmebc.com/quick-start-hme-signature-series-dove-mattress/)

#### Quick-Start:

Sets the optimal pressure and eliminates the need for caregiver adjustments.

#### EasyCover:

Cover easily removed for cleaning and disinfecting and can be laundered. Ease of cleaning ensures infection protection.

#### Automatic Auto Fowler:

Adds extra air to support the hips and lower back when the head of the bed is raised above 30 degree angle.

### SPECIFICATIONS

- Dimensions: 80" x 35" x 6"
- Weight Capacity: 350 lbs (With all foam inserts)

# HME SWAN MATTRESS

## TRUE LOW AIR LOSS MATTRESS

The HME Signature Series Dove Mattress is designed to prevent The HME Signature Series Swan is a true low-air loss mattress that was clinically designed for high-risk complex clients to minimize agitation, elevate skin protection, and promote restorative sleep.

Designed with clinicians in mind, the HME Swan offers a user-friendly experience with its intuitive design and state-of-the-art functions such as an 'Auto-Detect' feature that automatically configures optimal pressure, streamlining setup and reducing the need for ongoing maintenance.

**MSRP:** \$2,995

**SKU:** HMESWAN

### FEATURES

#### True Low Air Loss Therapy:

Continuous high airflow controls microclimate (temperature and humidity) suitable to promote wound healing.

#### Auto-Fowler:

Automatic increase of air to sacral/pelvic area when bed head is raised to reduce risk of bottoming-out and ensure protection for high-risk bony areas.

#### StaticPillow:

A motionless head section to promote head and neck positioning and offer comfort to the client.

#### Auto-Detect:

Automatically calibrates optimal pressure based on body weight and surface area. This improves the efficiency of set-up, reducing the need for on-going caregiver adjustments.

#### EasyCover:

Cover easily removed for cleaning and disinfecting and can be laundered. Ease of cleaning ensures infection protection.

#### HeelRelief:

lower pressure under the lightweight, bony ankle and heel areas to promote additional immersion and pressure redistribution.

### SPECIFICATIONS

- Dimensions: 80" x 36" x 8"
- Weight Capacity: 400 lbs

# HME POSITIONING SLING

## DESIGNED FOR EASY TRANSFERS

Designed for supine transfers, as well as repositioning a client in bed, it can also be used to turn someone onto their side. A positioning sling is available with or without elastics and handles and can be used with any compatible ceiling lift that accepts loop-style slings.

**MSRP:** \$650

**SKU:** 116302HME

## FEATURES

- Sling Fabric: Spacer
- The black Spacer fabric allows the sling to be:
  - Breathable through a knitted polyester fabric
  - Have multidirectional stretch helping to distribute pressure and mould to the user
  - Water permeable, making the material an excellent option for bathing

## SPECIFICATIONS

- Dimensions: 42" x 78"
- Weight Capacity: 1000 lbs
