

The Helio C2 is an ultra-lightweight folding manual wheelchair designed to maximize propulsion efficiency and reduce the effort required for everyday mobility. Its advanced carbon fiber construction delivers exceptional strength, responsiveness, and ride comfort.

Features

- High-modulus T700 carbon fiber frame for maximum strength and minimal weight
- Rigid unibody frame improves propulsion efficiency
- Ultrarigid folding system for smooth performance and easy transport
- Precision vertical axle plate for customized positioning
- Tool-free convertible flip-back armrests
- Compatible with lightweight performance accessories

Specifications

- Frame: Folding, T700 carbon fiber
- Seat Width: 14"-22" (36-56 cm)
- Seat Depths: 14"-20" (36-51 cm)
- Weight Capacity: 265 lbs (120 kg) (350 lbs / 159 kg HD if applicable)
- Transport Weight: Varies by configuration
