

MoHiCan II – Hygiene and Toilet Chair

The MoHiCan II is a powered hygiene and toilet chair designed to improve comfort, safety, and caregiver efficiency. Its powered height and tilt adjustments make hygiene and toileting easier for users with reduced mobility.

Features

- Powered height adjustment with forward and backward seat tilt
- Reclining armrests and adjustable headrest for added comfort
- Removable seat for easy cleaning
- Locking casters for safe maneuverability
- Integrated footrest for improved support
- Compact design fits over most standard toilets
