

The NXT Armadillo Backrest with Vicair is designed to provide advanced postural support, pressure redistribution, and customizable positioning. Its modular design and adjustable Vicair® cushion allow clinicians to tailor support to each user's unique seating needs.

Features

- Customizable Vicair® cushion provides personalized positioning and comfort
- Nine adjustable air-cell compartments allow precise contour adjustments
- Central channel helps reduce pressure along the spine
- Modular design supports a wide range of postural needs
- Adjustable contouring accommodates spinal asymmetries and positioning requirements
- QuickFit Mounting System allows height, depth, angle, and width adjustments
- Breathable stretch cover promotes comfort and airflow
