

Rearward Sliding Tilt Multichair

The Rearward Sliding Tilt Multichair is a versatile shower, commode, and mobility chair designed to simplify bathing and toileting. Its tilt-in-space design and sliding transfer system provide enhanced comfort while reducing the need for multiple transfers.

Features

- Tilt-in-space design with adjustable headrest
- Sliding transfer system for easy shower access
- Narrow profile fits most shower entrances
- Flip-back armrests for easier transfers
- Corrosion-resistant aluminum and stainless steel construction
- Adjustable seat height and modular design
