

The Resolve Cushion is designed to provide pressure redistribution, positioning support, and postural stability for wheelchair users who are at risk of pressure injuries or require additional seating support. Its multi-density foam construction promotes immersion, comfort, and proper positioning.

## Features

- Multi-density foam design enhances immersion and pressure redistribution
- Anti-thrust support helps reduce sliding and improve pelvic positioning
- Pelvic obliquity wedge helps accommodate or correct pelvic asymmetries
- Lateral pelvic supports promote stability and control pelvic rotation
- Medial thigh abductor helps maintain proper leg positioning
- Lateral thigh supports help prevent excessive thigh abduction
- Optional base wedge allows anterior, posterior, or lateral seat adjustments

## Specifications

- Weight: Approximately 3.5 lbs (1.6 kg)
- Warranty: 2-year limited warranty

## Available Sizes

- Width: 14"-24" (36-61 cm)
- Depths: 14"-24" (36-61 cm)
