

The Silverback Max & Silverback Prime are designed to provide spinal support, pressure redistribution, and skin protection for wheelchair users. Featuring Geo-Matrix™ gel technology, both models help reduce shear and pressure along the spine while promoting comfort during tilt and recline.

Features

- Geo-Matrix™ gel technology helps reduce pressure and shear along the spine
- Provides enhanced comfort and skin protection during tilt and recline
- Helps reduce vibration and improve sitting comfort
- Breathable cover promotes airflow and temperature control
- Available in multiple contour depths to meet positioning needs
- Custom sizing available
- Silverback Max offers additional gel cushioning for enhanced protection and comfort
