

The Spex Standard Back is designed to provide comfortable trunk support and customizable positioning for wheelchair users. Its adjustable contouring system allows clinicians to make quick modifications to improve comfort, support, and posture as user needs change.

Features

- Adjustable contouring system allows customized support and positioning
- Helps accommodate postural asymmetries and changing needs
- Contours remain securely in place after adjustment
- Dual-layer cover helps reduce shear and improve comfort
- Breathable design promotes airflow and moisture management
- Available in multiple back shapes to suit different users
- Custom and bariatric sizes available
