

HMETM Spex SuperHigh Contour Cushion

The Spex SuperHigh Contour Cushion is designed to provide positioning support, pressure redistribution, and stability for users who require deep pelvic immersion. Its contoured design promotes comfort, balance, and postural support throughout the day.

Features

- Provides deep pelvic immersion for pressure relief and comfort
- Supports pelvic stability and promotes proper positioning
- Enhanced medial and lateral thigh supports improve lower-body alignment
- Helps accommodate windswept postures and hip/femur alignment variances
- Increased clearance for hip positioning belts
- Breathable mesh cover helps reduce heat and moisture buildup
- Custom modifications available to meet individual seating needs
